

PANDEMIC RISKS AND GLOBAL HEALTH

THE ROLE OF INTERNATIONAL COOPERATION AND MULTILATERAL FUNDS

13 May 2025
17:00-19:00 CEST

Istituto Affari Internazionali (IAI)
Via dei Montecatini, 17
Rome

Working language: English

The aim of the event is twofold: to discuss the role played by vaccines in tackling epidemics and to analyse the evolution of funds supporting global health in light of the emerging threats and the changing international scenario. The meeting will pay special attention on Italy, focusing on the health initiatives of the Mattei Plan. Speakers will include officials from the Ministries of Foreign Affairs and Finance and the Mattei Plan mission structure, representatives of non-governmental organisations, leading international academics and representatives of multilateral funds supporting global health. The discussion will take place behind closed doors and under the Chatham House Rule.

With the support of

Fondazione
Compagnia
di San Paolo
