IAI-University of Turin Essay Prize 2022 Award Ceremony

7 DECEMBER 2022
11.30 – 12.30

Working language: English

Now in its second year, the IAI-University of Turin Essay Prize is an initiative launched by IAI's Italian Foreign Policy Programme – in the context of the Institute's Strategic Partnership with the Compagnia di San Paolo Foundation – and the Department of Historical Studies of the University of Turin, in collaboration with the School of Advanced Studies "Ferdinando Rossi" and the Luigi Einaudi Foundation. The initiative aims to foster debate and discussion on Italian foreign policy, calling on students enrolled at the University of Turin to submit short essays on historical, social, cultural, technological and economic-related aspects connected to current and past trends in Italian foreign policy. The winning essays were selected by an examination board composed of representatives of the partner institutions from a pool of submissions of outstanding quality and analytical skills, addressing different topics of relevance to Italian foreign policy. Winning essays will be published in the IAI Commentaries series.
