

STATISTICAL FACTSHEET

Geopolitics and Italian Foreign Policy in the Age of Renewable Energies

Istituto Affari Internazionali – June 2020

A project supported by the Ministry of Foreign Affairs and International Cooperation of Italy and Enel Green Power

This project (including leaflets, websites, publications, posters, etc.) has been realised thanks to a contribution by the Ministry of Foreign Affairs and International Cooperation of Italy under conditions set by Article 23-bis (DPR 18/1967)

Opinions expressed in this report are exclusively those of the authors and do not necessarily coincide with the official position of the Ministry of Foreign Affairs and International Cooperation of Italy.

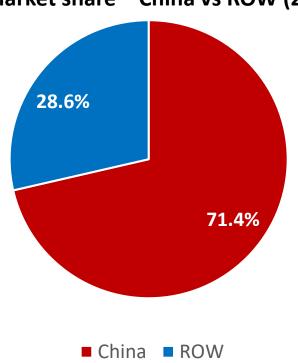

SECTION 1 GLOBAL RES VALUE CHAINS AND CRITICAL MATERIALS

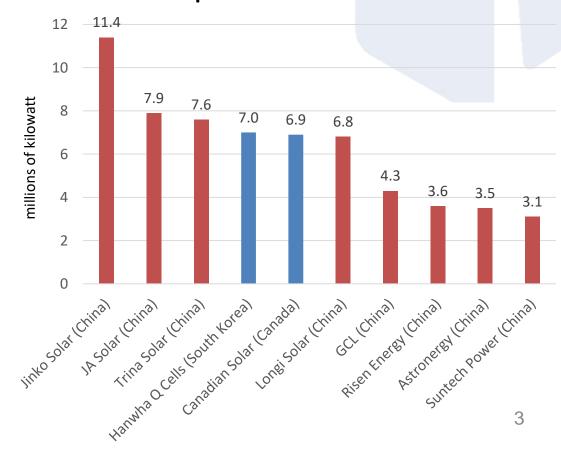

Solar PV Manufacturing (2018)

Market share – China vs ROW (2018)

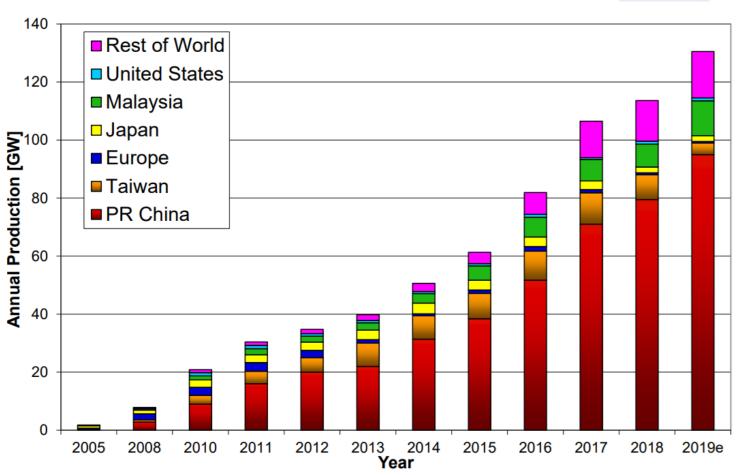

Top 10 Manufacturers in 2018

Key materials for batteries (2017) - production

- 60 million tons aluminum (smelters): 54% China, 6% Russia, 5% Canada
- 16 million tons manganese: 33% South Africa, 16% China, 14% Australia
- 2.1 million tons nickel: 11% Philippines, 10% Canada, 9% Russia, 9% Australia
- 1.2 million tons natural graphite: 67% China, 13% India, 8% Brazil
- 110,000 tons cobalt: 59% Democratic Republic of Congo, 5% Russia, 5% Australia
- 43,000 tons lithium: 44% Australia, 34% Chile, 13% Argentina

Lithium reserves by country (2019)

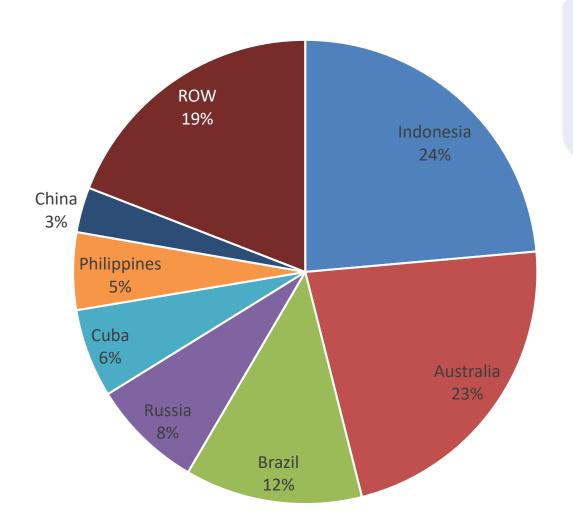

Cobalt reserves by country (2019)

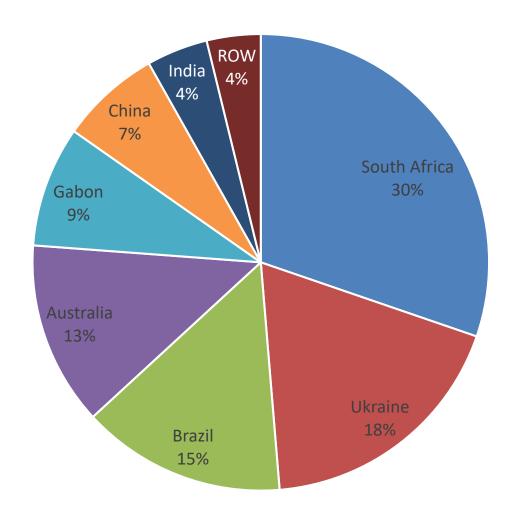

Nickel reserves by country (2019)

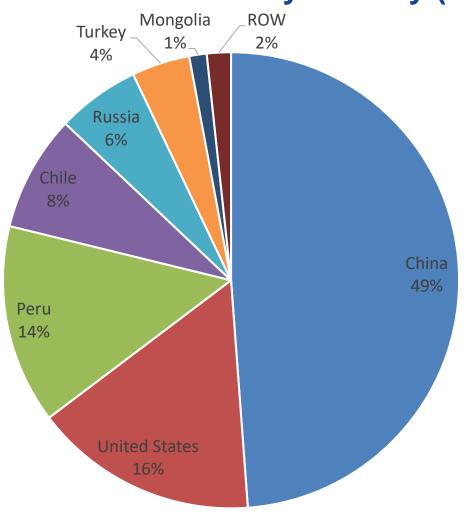

Manganese reserves by country (2018)

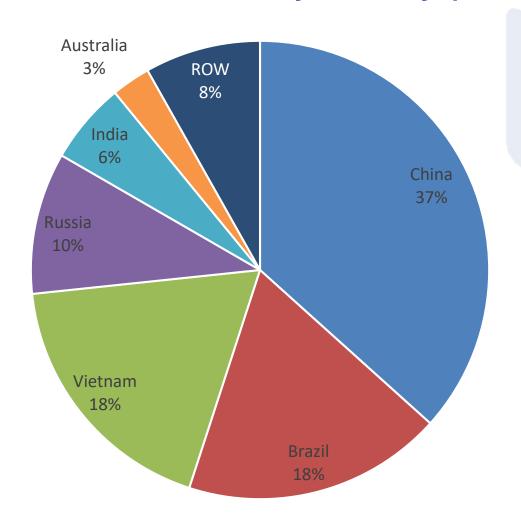

Molybdenum reserves by country (2019)

Rare earth reserves by country (2019)

SECTION 2 ITALY'S POSITION IN KEY RENEWABLE ENERGY INDICATORS

% of RES in

CONTENTS

□ Employment
□ Turnover
□ Solar PV – capacity and production
□ Wind – capacity and production
□ Biofuel
□ Geothermal
□ Solar thermal
□ Hydropower – capacity and production
□ Biomass
□ Biogas – total energy and heat
□ Heat pumps

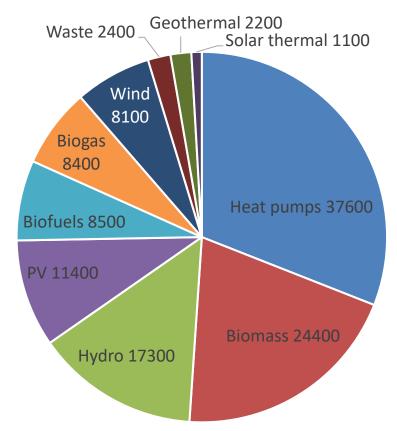

RES components – trade balance & revealed comparative advantage

Employment distribution by RES sector – Italy (2018)

Italy's Ranking in the EU-28 (employment) Geothermal 1 Hydro 1 Biogas 2 Heat pumps 3 Solar PV 4 Biomass 5

10

- ✓ Heat pumps and biomass account for 51% of RES employment in Italy.
- ✓ At the moment only 16% of RES jobs in Italy are in the solar PV & wind sectors

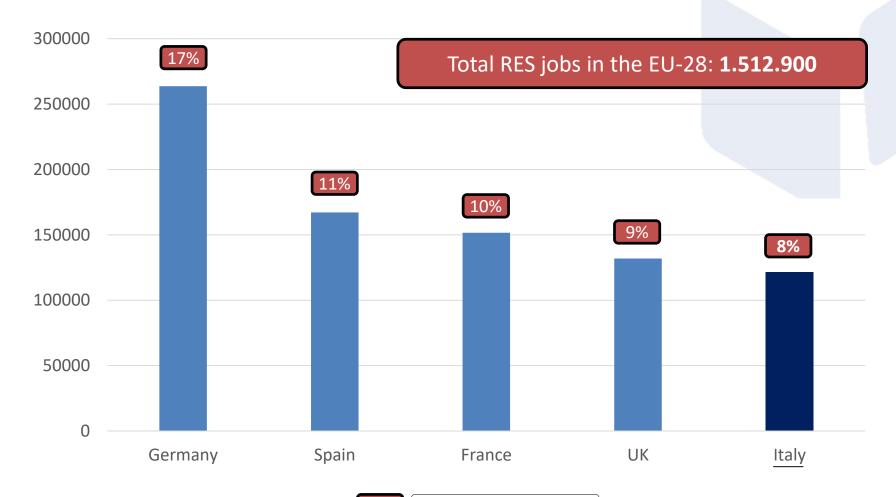

Waste Wind

Biofuels

Solar thermal

Total employment in all RES sectors – Top 5 EU (2018)

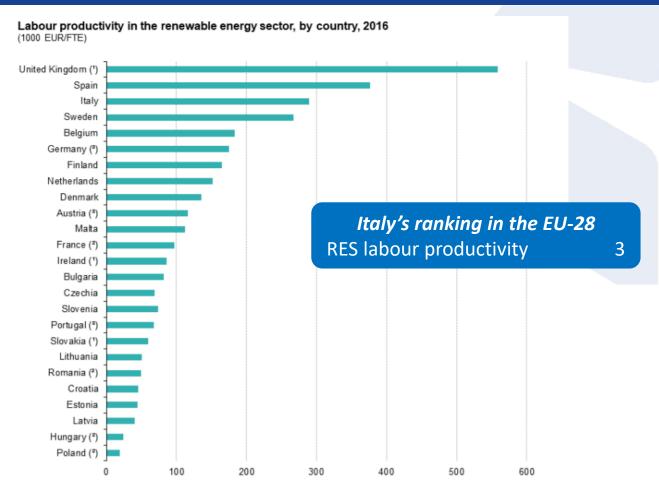

Graphs by IAI
Sources: Eurostat, Eurobserver

Relative employment in all RES sectors – Top 5 EU (2018) % of total workforce

Note: Labour productivity is calculated as ratio between gross value added [EUR] and employment [FTE] related to the market production of energy from renewable sources (category CReMA 13A); Data for EU-28, Cyprus and Greece not yet available; Data for Luxembourg are confidential
